3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurances effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including

Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advances, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, so payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

The following Act, passed by the Right Hon'ble the Governor General of India in Council on the 23 July, 1837, is hereby promulgated for general information:

ACT No. XVI. of 1837.

I. It is hereby enacted, that from the 15th day of July, 1837, Regulation XV. 1817 of the Bengal Code, shall be repealed.

II. And it is hereby enacted, that when the Customs Duties fixed to be levied upon Goods exported by sea from any Port of Bengal or Orissa shall be *ad valorem*, the value of such Goods shall be declared by the Exporter in the manner prescribed by Regulation VI. 1833 of the Bengal Code for Goods imported into Calcutta by sea, and the provisions of that Regulation for cases of disputed value (excepting Section IV. thereof, which prescribes the levy of duty when the Goods are taken for Government) shall apply to Goods intended to be exported by sea in like manner as for imported Goods, and the value so to be declared by the Exporter shall include the packages or materials in which the Goods may be contained.

III. And it is hereby enacted, that it shall be lawful for the Governor of the Presidency of Fort William in Bengal from time to time by notice in the Official Gazette to fix a value for any article liable to *ad valorem* duty, and that the value so fixed by the Governor of the said Presidency shall, till altered by a similar notice, be taken to be the value of such article for the purpose of levying duty on the same.

IV. And it is hereby enacted, that every Master of a Vessel, who shall remove from such Vessel or put on board thereof any Goods, or cause or suffer any Goods to be removed thereon or put on board thereof between sun-set and sun-rise, or on any day when the Custom House is closed for business, without leave in writing obtained from the Collector of Customs, shall be punished with a fine not exceeding 500 Rupees.

V. And it is hereby enacted, that when upon application from the Commander of any Vessel the Custom House Officer shall be removed from on board thereof under the provisions to that

effect contained in Section XVI. of the Act XIV. of 1837, if the Commander of such Vessel shall before a Custom House Officer have again been placed in such Vessel, put on board of such Vessel or cause or suffer to be put on board of such Vessel any Goods whatever, such Commander shall be punished with a fine not exceeding 1,000 Rupees, and the Goods shall be liable to be re-landed for examination at the expense of the Shipper or Shippers upon requisition to that effect from the Collector of Customs.

VI. And it is hereby enacted, that the Commander of every Vessel who is bound to receive a Custom House Officer on board of such Vessel shall also be bound to receive on board one Servant of such Officer, and to provide such Officer and such Servant with suitable shelter and accommodation, and likewise with a due allowance of fresh water, and with the means of cooking on board, and if any Commander of a Vessel shall wilfully disobey the directions contained in this Section he shall be punished with fine not exceeding 500 Rupees.

VII. And it is hereby enacted, that no Cargo boat laden with Goods intended for exportation by sea shall make fast to, or lie alongside of any Vessel unless there shall be on board the boat or have been received by the Custom House Officer on board of the Vessel, a Custom House Permit or Order for the shipment of the Goods. And the Goods on board of any boat that may so lie alongside or be made fast to a Vessel if such Goods be not covered by a Custom House Pass accompanying them, or previously received by the Customs Officer on board the said Vessel, shall be liable to confiscation.

VIII. And it is hereby enacted, that when Goods shall be sent from on board ship for the purpose of being landed and passed for importation, there shall be sent with each boat-load or other separate dispatch, a boat-note specifying the number of packages and the marks and numbers or other description thereof, and such boat-note shall be signed by an Officer of the Vessel and likewise by the Customs Officer that may be on board, and if any imported Goods be found in a boat proceeding to land without a boat-note, or if being accompanied by a boat-note they be found out of the proper track between the Ship and the Custom House Wharf or other Wharf or Quay at which they have been permitted to be landed, the boat containing such Goods may be detained by any Inspector or by any other Officer of the Preventive Service of the Custom House duly authorized by the Collector of Customs, and unless the cause of deviation be explained to the satisfaction of the Officers of Customs, the Goods shall be liable to confiscation.

IX. And it is hereby enacted, that when Goods shall be brought to be passed through the Custom House, either for importation or exportation by Sea, if the packages in which the same may be contained shall be found not to correspond with the description of them given in the application for passing them through the Custom House, or if the contents thereof be found not to have been correctly described in regard to sort, quality or quantity, or if any Goods not stated in the application be found concealed in or mixed up with the specified articles, all such packages with the whole of the Goods contained therein, shall be liable to confiscation.

X. And it is hereby enacted, that if any person after Goods have been landed and before they have been passed through the Custom House, removes or attempts to remove them with the intention of defrauding the the Revenue, the Goods shall be liable to confiscation.

And it is hereby enacted, in modification of the Article of Schedule B. of Act No. XIV. of 1836, which provides that when Sugar or Rum shall be exported on British Bottoms to any British Possession, no duty shall be levied thereupon; and if on Foreign bottoms a duty of 3 per cent. only shall be levied that the said exemption from duty and advantage of rate shall not hold or apply to the case of Sugar exported to any British Possession or Settlement on the Continent of India (including the Port of Bombay), but duties shall be levied on such exports in the same manner as upon Sugar and Rum exported to other places and the amount of duties so levied shall be credited, in the adjustment of any import duty to which the Sugar so exported from Bengal may be subject at any place of import within the possessions of the East India Company.

XII. And it is hereby enacted in modification of Section XVIII. of the Act XIV. of 1836, that when Goods shall be shipped after Port Clearance, if the same be imported Goods entitled to drawback, such drawback shall be forfeited but no separate duty shall be levied thereon.

XIII. And it is hereby enacted in modification of Section XV. of Act XIV. of 1836, that if Goods landed at the Custom House be not claimed and cleared from the Custom House within three months from the date of entry of the Ship in which such Goods were imported, it shall be competent to the Collector to sell the Goods on account of the Duties, Freight and other charges incurred and due thereon.

XIV. And it is hereby enacted, that no payment shall be made of drawback upon any Goods exported from any Port of Bengal or Orissa unless the export be made within two years from the date of the import in the Custom House Registers, nor unless the claim to receive such drawback be made at the time of exportation, nor unless the amount due thereupon be demanded within one year from the date of entry for shipment in the Custom House Registers.

XV. And it is hereby enacted, that drawback shall not be allowed upon Goods shipped in Dhows and Native Craft not navigated by Pilots and not having Custom House Officers on board.

XVI. And it is hereby enacted in modification of Section LI. Regulation IX. of 1810, that the Board of Customs, Salt and Opium shall have power to fix, and from time to time to alter the rates of Wharfage and Godown rent charges, and to determine the time for which Goods shall be allowed to remain on the Wharfe or in the Godowns of the Custom House, free of charge, while the Goods are being passed for import and export by sea.

XVII. And it is hereby enacted, that it shall be lawful for the Collector of Customs, whenever he shall see fit to require that Goods brought by sea and stowed in bulk shall be weighed on board ship before being sent to land and to levy duty according to the result of such weighing.

XVIII. And it is hereby enacted, that whoever shall intentionally offer any obstruction to the weighing directed by the preceding Section, shall be punished with a fine not exceeding 500 Rupees.

POLITICAL DEPARTMENT,

FORT WILLIAM, THE 26TH JUNE, 1837.

The Right Honorable the Governor General of India in Council is pleased to publish for general information, the substance of the arrangements concluded on the 23rd of November, 1836, between Colonel Pattiniger, the Agent to the Governor General for the Affairs of Sindh and the Amiers of Hyderabad, with a view to protect the interests of Commerce on the Indus.

To obviate the difficulties Vessels might meet with from the low-lying nature of the Coast, in approaching the mouths of the River by the proper entrance, a channel will be laid down by Buoys; and landmarks will be erected along the shore at such spots as may appear most eligible. A Survey of the whole line of the Coast and of the Harbours of Cutch and Sindh from Mundavoe to Karachi is in progress, under the direction of the Bombay Government, and it is of course understood that any Port shall be available to Vessels compelled there by stress of weather or otherwise prevented from proceeding on their intended course.

Syud Azem and Joon Hossan, the Native Agent of the British Government, will reside at one of the mouths of the River. He has been recognized also by the Hyderabad Government as a Referee qualified to decide upon any disputes respecting Tolls or other dues, and it has been arranged that Goods imported in anticipation of the opening of the River may be landed and warehoused either at Vikkur or Tattah under the Seal of the Syud.

Instead of the former variable charges, a fee of half a Rupee shall hereafter be leviable from all Boats anchoring at Vikkur or other Ports (Bunder) at the mouths of the River, and all other duties or demands, not expressly authorized by the Treaty are held to be unwarranted and illegal.

The Amiers of Hyderabad have further agreed to establish, if it be found convenient, in co-operation with the British Government, an Annual Fair

at Tattah (or at Vikkur if it be preferred) which may be expected to be the resort of Merchants from all surrounding Countries; and finally, they have undertaken to facilitate the River navigation as far as may be by clearing away the jungle on the banks.

By Order of the Right Honorable the Governor General of India in Council,

W. H. MACNAGHTEN,

Secy. to Govt. of India.

LIGHT AT FALSE POINT—BAY OF BENGAL. NOTICE.

REFERRING to the Notice published from this Office
 under date 18th July last, Notice is given that on the
 1st day of March next a Light will be exhibited at False
 Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longi-
 tude $88^{\circ} 45' 8''$ E.

The Light will be exhibited from an elevation of about
 65 feet above high water mark, and be visible in clear
 weather at a distance of about 13 miles from an elevation
 of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of
 November, after which it will be discontinued, in order to
 the removal of the Lantern to the top of the permanent
 Building. It will subsequently, viz. on and after the 1st
 March, 1858, be again exhibited at an elevation of 120 feet
 above high water mark, and be then visible from 18 to
 20 miles in clear weather, from the height of 15 feet from
 the surface of the Sea.

The Pilot Station will be continued as heretofore, off
 Point Palmyras, during the S. W. Monsoon, that is from
 the 15th March to the 15th September, during which period
 the Pilot Vessels cruise during the day off the Point, an-
 choring during the night in a line East and West, in
 Latitude $20^{\circ} 44'$ to $20^{\circ} 48'$ N. with the Point bearing West
 to W. by S.; the Vessel, on board of which the next turn
 Pilot may be, will burn a Blue Light and fire a Maroon
 alternately every half hour, commencing with the former at
 eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are
 recommended after bringing it to bear West in from 18 to 14
 fathoms, to steer to the N. E. keeping in from 18 to 18
 fathoms as the wind may hang to the Westward or East-
 ward, on no account coming under the former depth. In
 this track the Blue Light and Maroon abovementioned will
 be seen long before the Light on False Point is lost sight
 of. If, however, about the beginning of September, the
 wind comes from the Eastward or the weather assumes a
 threatening appearance, the Pilot Vessels necessarily haul
 off to the Eastward, and will then be found in a line between
 Point Palmyras and the Floating Light at the entrance
 of the Eastern Channel. Vessels therefore about that
 period, if the wind hangs to the Eastward or has a threat-
 ening appearance, are recommended after leaving False Point
 on no account to approach Point Palmyras, but rather to
 endeavour to make for the Floating Light at the entrance
 of the Eastern Channel, and it is further notified that from
 the 15th September no Pilot Vessel will be found to the
 Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot
 Vessels cruise during the day between Saugor Sand and
 the Western Sea Reef, anchoring in the night East and
 West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are
 requested to make for that Vessel on board of which they

will see a large red Flag flying at the Main whenever they
 can do so without great inconvenience or delay. In the
 night during the N. E. Monsoon, that is from 15th
 September to 15th March, at the Floating Light Station at
 the entrance of the Eastern Channel, the Vessel having the
 next turn Pilot on board will burn a Maroon every hour,
 and in thick weather every half hour, and as before stated,
 at the Point Palmyras Station, during the S. W. Monsoon,
 or between 15th March and 15th September, such Vessel
 will alternately burn a Blue Light and Maroon every half
 hour. Commanders are in like manner requested during
 the night to seek their Pilot from such Vessel, it being
 however understood that any Pilot Vessel which may be
 first seen is bound immediately to use every exertion to put
 a Pilot on board, night or day, without reference to turn or
 rotation, and that this latter is only allowed when no delay
 is occasioned thereby.

FORT WILLIAM, LEGISLATIVE DEPARTMENT. THE 3D JULY, 1837.

The following Act, passed by the Right Hon'ble the Governor General of India in Council on the 3d July, 1837, is hereby promulgated for general information:

Act No. XVI. of 1837.

I. It is hereby enacted, that from the 16th day of July, 1837, Regulation XV. 1817 of the Bengal Code, shall be repealed.

II. And it is hereby enacted, that when the Customs Duties fixed to be levied upon Goods exported by sea from any Port of Bengal or Orissa shall be *ad valorem*, the value of such Goods shall be declared by the Exporter in the manner prescribed by Regulation VI. 1833 of the Bengal Code for Goods imported into Calcutta by sea, and the provisions of that Regulation for cases of disputed value (excepting Section IV. thereof, which prescribes the levy of duty when the Goods are taken for Government) shall apply to Goods intended to be exported by sea in like manner as for imported Goods, and the value so to be declared by the Exporter shall include the packages or materials in which the Goods may be contained.

III. And it is hereby enacted, that it shall be lawful for the Governor of the Presidency of Fort William in Bengal from time to time by notice in the Official Gazette to fix a value for any article liable to *ad valorem* duty, and that the value so fixed by the Governor of the said Presidency shall, till altered by a similar notice, be taken to be the value of such article for the purpose of levying duty on the same.

IV. And it is hereby enacted, that every Master of a Vessel, who shall remove from such Vessel or put on board thereof any Goods, or cause or suffer any Goods to be removed thence or put on board thereof between sun-set and sun-rise, or on any day when the Custom House is closed for business, without leave in writing obtained from the Collector of Customs, shall be punished with a fine not exceeding 500 Rupees.

V. And it is hereby enacted, that when upon application from the Commander of any Vessel the Custom House Officer shall be removed from on board thereof under the provisions to that effect contained in Section XVI. of the Act XIV. of 1836, if the Commander of such Vessel shall before a Custom House Officer have again been placed in such Vessel, put on board of such Vessel or cause or suffer to be put on board of such Vessel any Goods whatever, such Commander shall be punished with a fine not exceeding 1,000 Rupees, and the Goods shall be liable to be re-landed for examination at the expense of the Shipper or Shippers upon requisition to that effect from the Collector of Customs.

VI. And it is hereby enacted, that the Commander of every Vessel who is bound to receive a

Custom House Officer on board of such Vessel shall also be bound to receive on board one Servant of such Officer, and to provide such Officer and such Servant with suitable shelter and accommodation, and likewise with a due allowance of fresh water, and with the means of cooking on board, and if any Commander of a Vessel shall wilfully disobey the directions contained in this Section he shall be punished with fine not exceeding 500 Rupees.

VII. And it is hereby enacted, that no Cargo boat laden with Goods intended for exportation by sea shall make fast to, or lie alongside of any Vessel unless there shall be on board the boat or have been received by the Custom House Officer on board of the Vessel, a Custom House Permit or Order for the shipment of the Goods. And the Goods on board of any boat that may so lie alongside or be made fast to a Vessel if such Goods be not covered by a Custom House Pass accompanying them, or previously received by the Customs Officer on board the said Vessel, shall be liable to confiscation.

VIII. And it is hereby enacted, that when Goods shall be sent from on board ship for the purpose of being landed and passed for importation, there shall be sent with each boat-load or other separate dispatch, a boat-note specifying the number of packages and the marks and numbers or other description thereof, and such boat-note shall be signed by an Officer of the Vessel and likewise by the Customs Officer that may be on board, and if any imported Goods be found in a boat proceeding to land without a boat-note, or if being accompanied by a boat-note they be found out of the proper track between the Ship and the Custom House Wharf or other Wharf or Ghaut at which they have been permitted to be landed, the boat containing such Goods may be detained by any Inspector or by any other Officer of the Preventive Service of the Custom House duly authorized by the Collector of Customs, and unless the cause of deviation be explained to the satisfaction of the Officers of Customs, the Goods shall be liable to confiscation.

IX. And it is hereby enacted, that when Goods shall be brought to be passed through the Custom House, either for importation or exportation by Sea, if the packages in which the same may be contained shall be found not to correspond with the description of them given in the application for passing them through the Custom House, or if the contents thereof be found not to have been correctly described in regard to sort, quality or quantity, or if any Goods not stated in the application be found concealed in or mixed up with the specified articles, all such packages with the whole of the Goods contained therein, shall be liable to confiscation.

X. And it is hereby enacted, that if any person after Goods have been landed and before they have been passed through the Custom House, removes or attempts to remove them with the intention of defrauding the Revenue, the Goods shall be liable to confiscation.

XI. And it is hereby enacted, in modification of the Articles of Schedule B. of Act No. XIV. of 1836, which provides that when Sugar or Rum shall be exported on British bottoms to any British Possession, no duty shall be levied thereupon; and if on Foreign bottoms a duty of 3 per cent. only shall be levied that the said exemption from duty and advantage of rate shall not hold or apply to the case of Sugar exported to any British Possession or Settlement on the Continent of India (including the Port of Bombay), but duties shall be levied on such exports in the same manner as upon Sugar and Rum exported to other places and the amount of duties so levied shall be credited, in the adjustment of any import duty to which the Sugar so exported from Bengal may be subject at any place of import within the possessions of the East India Company.

XII. And it is hereby enacted in modification of Section XVIII. of the Act XIV. of 1836, that when Goods shall be shipped after Port Clearance, if the same be imported Goods entitled to drawback, such drawback shall be forfeited but no separate duty shall be levied thereon.

XIII. And it is hereby enacted in modification of Section XV. of Act XIV. of 1836, that if Goods landed at the Custom House be not claimed and cleared from the Custom House within three months from the date of entry of the Ship in which such Goods were imported, it shall be competent to the Collector to sell the Goods on account of the Duties, Freight and other charges incurred and due thereon.

XIV. And it is hereby enacted, that no payment shall be made of drawback upon any Goods exported from any Port of Bengal or Orissa unless the export be made within two years from the date of the import in the Custom House Registers, nor unless the claim to receive such drawback be made at the time of exportation, nor unless the amount due thereupon be demanded within one year from the date of entry for shipment in the Custom House Registers.

XV. And it is hereby enacted, that drawback shall not be allowed upon Goods shipped in Dhows and Native Craft not navigated by Pilots and not having Custom House Officers on board.

XVI. And it is hereby enacted in modification of Section LI. Regulation IX. of 1810, that the Board of Customs, Salt and Opium shall have power to fix, and from time to time to alter the rates of Wharfage and Godown rent charges, and to determine the time for which Goods shall be allowed to remain on the Wharfs or in the Godowns of the Custom House, free of charge, while the Goods are being passed for import and export by sea.

XVII. And it is hereby enacted, that it shall be lawful for the Collector of Customs, whenever he shall see fit to require that Goods brought by sea and stowed in bulk shall be weighed on board ship before being sent to land and to levy duty according to the result of such weighing.

XVIII. And it is hereby enacted, that whoever shall intentionally offer any obstruction to the weighing directed by the preceding Section, shall be punished with a fine not exceeding 500 Rupees.

PORT WILLIAM, 10th July, 1837.

No. 138 of 1837.—Under instructions from the Hon'ble the Court of Directors, His Lordship in Council is pleased to direct, that Family Remittances from Non-Commissioned Officers and Privates of King's Regiments serving in India, be strictly confined to the spirit of the Secretary at War's Circulars of the 30th April, 1829 and 23d January, 1837, the former of which gave rise to the indulgence of such Remittances from Soldiers on foreign stations.

It was never intended by these Regulations that money accumulated in a long course of years by individuals belonging to Regiments under Orders for

Europe, should be considered in the light of Family Remittances, or possess a claim to be forwarded to England through the medium of the Hon'ble Company's Treasuries at any of the Presidencies.

The object contemplated was, to afford to Soldiers on foreign Stations, the means of contributing periodically, by *bona fide savings* from their Pay, without loss or risk, to the support of their families or connexions during their absence; or to send such savings periodically to England, to be held in deposit for their own advantage on their return.

**LIGHT AT FALSE POINT—BAY OF BENGAL.
NOTICE.**

REFERRING to the Notice published from this Office under date 19th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude 23° 19' 25" N. and Longitude 80° 48' 8" E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 180 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilot Station will be continued as heretofore, off Point Palmyra, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 16 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. It, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyra and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyra, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Haugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyra Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

PORT WILLIAM,
GENERAL DEPARTMENT.
FOREIGN.

THE 12TH JULY, 1837.

The following List of the Light Houses on the Danish Coasts, forwarded by the Board of Customs and Commerce at Copenhagen, and communicated to this Government by the Government of Serampore, is published for general information.

LIST OF THE LIGHT-HOUSES ON THE
DANISH COASTS. 1836.

Published by Order of the Royal Board of Customs and Trade.

COPENHAGEN.

The Danish Light Houses are kept lighted every night throughout the year till sunrise. In summer: from Easter to Michaelmas, they are lighted one hour; and in winter: from Michaelmas to Easter, half an hour after sunset.

The distances at which these light houses can be seen from the deck of a common trading vessel, or when the eye of the observer is about 16 feet above the level of the sea, are in this list put down in geographical miles, the other measures in Danish feet or ells, and the directions according to the Danish Compass.

IN THE CATTEGATE.

SKAGEN'S LIGHT HOUSE.

A fixed lamp-light on the Northernmost point of Jutland (called "Skagen's Odde" or "Cronen") in a tower, situated about 8000 ells W. by N. from the extreme end of the Peninsula, — the light is 67 feet above the level of the Sea and visible at a distance of $8\frac{1}{2}$ miles.

FREDERICKSHAVEN'S HARBOR LIGHT.

A fixed lamp-light on the Southern head of the harbor, 33 feet above the Sea, and visible at a distance of $2\frac{1}{2}$ miles.

LARGE LIGHT VESSEL.

This is situated about 10 E. S. E. 5-6 cables' length from the ground "Trendelen" in 7 fathoms water, and in N. E. $\frac{1}{2}$ N. about $1\frac{1}{2}$ mile from the Easternmost point of the island of Langeland, called "Syrødden." The Vessel has a lamp-light around the main mast, and is rigged somewhat like a Schooner, the sides of the Vessel are painted red with a white cross. During the day she shows a red flag on the fore-top-mast, and when the weather is thick and foggy, the Ship-bell is rung frequently; the light is hoisted 23 feet above the level of the Sea, and can be seen at a distance of $2\frac{1}{2}$ miles. The Vessel may, if the preceding water renders it sensible, be expected at her Station at the very beginning of March, and will remain there till the 21st of December, unless an unexpected severe frost or unforeseen mishaps should oblige her to quit the station earlier.

The light on the Island of Ansløt is in a tower situated a little above $\frac{1}{2}$ mile W. by N. within the Eastern point of the island. The main light is a fixed lamp-light 119 feet above the level of the sea and visible at a distance of 4 miles.

As a further guide to avoid approaching the eastern reef of Ansløt ("Knoden") too near, a fixed additional light is provided on the eastern side of the tower about 63 feet under the main light.

NARREHØVED Two LIGHTS.

On the Northern Coast of Nalund, about $2\frac{1}{2}$ miles N. W. from the Castle of Kronborg are fixed lamp-lights in 2 light houses, distant from each other about 640 ells. Of these lights the Western is 142 feet, the Eastern 93 feet above the level of the Sea; the former is visible at a distance of 4 $\frac{1}{2}$, the latter of $3\frac{1}{2}$ miles.

KRONBORG LIGHT HOUSE.

is erected as a guide for Vessels entering the Sound from the North, consists of a fixed lamp-light in the North-eastern tower of Kronborg-Castle, 107 feet above the

level of the sea, and is visible from the North at a distance of about $3\frac{1}{2}$ miles.

THE LIGHT AT TERNØRNE.

A fixed lantern-lamp on the eastern side of the Fort "Ternørborg," at the entrance of the outer harbor of Copenhagen, 30 feet above the water and visible at a distance of $3\frac{1}{2}$ miles.

TANNØR LIGHT.

A fixed lamp light in the Church Steeple of the said island, situated between Julland and Samsoe, 97 feet above the water and visible at a distance of $3\frac{1}{2}$ miles all around the island.

Kyholm's Light, a temporary twinkling light at the quarantine establishment of the island of Kyholm, on the North eastern side of Samsoe, 55 feet high and visible at a distance of 3 miles.

The fixed lights at "Kundshoved" near Nærborg and at Helsingør near Korsoe, besides the two fixed harbour lights of Korsoe, are erected to guide the passage of the post and of ferry boats across the Great Belt between the aforesaid towers, and are kept lighted every night, whereas the twinkling light at Sprungø is only so when the post passes.

IN THE BALTIC.

STEVEN'S LIGHT.

A revolving lamp or twinkling light at Steven's Klint, on the Eastern Coast of Scania; the building in the Eastern gable of which the light is put up, stands 2,300 ells N. 26° E. from Højrup Church, at the Southern extremity of Steven's Klint; the 6 lamps with everburners revolve in 3 minutes, so that a twinkle is seen every half minute; the height of the light above the level of the sea is 140 feet, and can be seen at a distance of $4\frac{1}{2}$ miles.

GÖDESEN LIGHT.

Consists of a fixed lamp-light on the Southern extremity of island of Falster, called "Gjederodde," in a turret, situated about $\frac{1}{2}$ mile within the extreme point of the island. Its height above the level of the sea is 44 feet, and it is visible at a distance of $2\frac{1}{2}$ miles.

As a caution in the day time against the dangerous ground "Fudelebo," situated in S. E. $\frac{1}{2}$ S. from Gjederodde, a black painted turret on a pole is put up on the high acclivity near the coast. This day mark, in a line with the light house, shows the direction to the aforesaid grounds.

The Light "Marindefuchte" at Teknær, at the edge of the old castle (Ostenborg), near the reef of Færgården, on the North-eastern side of the island. It has 6 lamps with everburners, which revolve in 3 minutes, so that during this space of time are seen alternately 3 twinkles, each of which is visible for 10 seconds and disappears again for 20 seconds. The light is 92 feet above the level of the sea, and is visible all around the island at a distance of about $3\frac{1}{2}$ miles, except in the direction between S 7° W. or S. 15° E. where the light is concealed by the land at a distance less than $1\frac{1}{2}$ mile.

TAKKESBØ, or GUNDET LIGHT.

A fixed lamp light on a high hill called Takkeshøj, situated in the South of the island of Langeland, in N. N. E. $\frac{1}{2}$ mile from the end of this island. Goldenar, 125 feet above the level of the sea, and visible at a distance of 3 miles.

BARK LIGHT.

A fixed lamp light on the coast to the North of the Frith of Kjel, put up in projection of the Eastern gable of the pilot house, about 33 feet above the water, and visible at a distance of $2\frac{1}{2}$ miles.

FREDERICKSBORG'S LIGHT.

A fixed lamp light in a house on the ramparts of Fredensborg, at the Western side of the Frith of Kjel, to caution against the three main grounds.

Hannemønsund's Light at Hørsholm, also called "Hannemønsund" or "Stenbyhøj" light, is a "sea coal Hamboen light" in a lantern on the so-called Stenbyhøj, about $\frac{1}{2}$ mile in S. W. within this Northernmost point of the island; the height of this light above the level of the sea is 375 feet, and it is visible at a distance of $3\frac{1}{2}$ miles.

CHRISTIANIA LIGHT.

A revolving lamp or twinkling light on the rock island, Christiansø, about $2\frac{1}{2}$ miles E. from the Northern point of Hørsholm, the 3 lamps of the light with 9 everburners revolve in 3 minutes, during which are visible 9 twinkles, alternating with equally long intervals, viz. a twinkle every 20th second. The light is 92 feet above the level of the Sea Coast, visible at a distance of $3\frac{1}{2}$ miles.

IN THE NORTH SEA.

The Light and Pilot Vessel at the mouth of the Eyder is stationed in the so-called Dove syfraden, between "Vattnet," in 4 $\frac{1}{2}$ fathoms of water. It has a lamp light around the foremast, 34 feet above the level of the sea, and visible at a distance of $2\frac{1}{2}$ miles.

Ships coming from the West and having the Light Vessel E. S. E. may with safety direct their course towards her, and may, if bad weather or low water should render a further entrance insecure, anchor to the E. of her in 8 fms.

themselves of water. The Vessel has two masts, and her sides are painted red with a white border; during the day she shows on her foretop a small Danish flag, which is about 60 feet above the level of the sea. On board the vessel are 3 Pilots to conduct ships on the Flyer up to Tomogon, on the Haven to Musun, and on the Elb to Rosel.

As a guide to her station for Ships, who in thick and foggy weather miss the mouth of the Eyder, a gun is fired and a bell rung as soon as a Ship out of her way comes within sight; no skipper is, however, on this account, obliged to approach the Light Vessel.

The Light and Pilot Vessel is sent to her station in the Spring towards the end of February, or as soon as the sea is free from ice, and will continue there till the 30th November, unless unforeseen circumstances should force her to leave the Station earlier.

CIRCULAR, No. 510.

War Office, 15th March, 1837.

Sir,—I have the honor to acquaint you, that, with a view to improve the situation of the Regimental School Master Sergeant, by affording a reward for good conduct, it has been determined to extend to the individuals thus employed the like additional allowance of six-pence a day after ten years uninterrupted service in that capacity, as is granted, under the Regulation of 6th July 1836, to the Orderly Room Clerk, and Paymaster Sergeant, for good conduct after the same period of service in those ranks.

The claim, in each instance, is to be supported by a certified copy of the School Master's verified record of service, and by the Commanding Officer's recommendation, from the date of which the increased pay will commence.

It is, however, to be clearly understood, that this allowance is liable to be suspended, or wholly taken away, if the School Master Sergeant shall be guilty of any neglect or misconduct, upon the circumstances thereof being fully stated to this Office by the Commanding Officer, even though it should not be deemed expedient to resort to a Court Martial.

**LIGHT AT FALSE POINT—DAY OF BENGAL.
NOTICE.**

REFERRING to the Notice published from this Office under date 10th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude 20° 10' 25" N. and Longitude 86° 48' 6" E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmira, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude 20° 42' to 20° 48' N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 16 inches as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon above-mentioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

LIGHT AT FALSE POINT—BAY OF BENGAL.
NOTICE.

REFERRING to the Notice published from this Office under date 18th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude 20° 19' 25" N. and Longitude 86° 48' 8" E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilot Station will be continued as heretofore, off Point Palmyra, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in

Latitude $20^{\circ} 48'$ to $20^{\circ} 49'$ N. with the Point bearing West in W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 12 to 14 fathoms, to steer to the N. E. keeping in from 73 to 118 fathoms as the wind may bang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon above-mentioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward, or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyra and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind bangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyra, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Sauger Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyra Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of paying the Company the amount of the Advances made thereon, including

Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them, before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whatsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the repaying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

LIGHT AT FALSE POINT—BAY OF BENGAL. NOTICE.

REFERRING to the Notice published from this Office under date 10th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longitude $86^{\circ} 48' 5''$ E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to

the removal of the lantern to the top of the permanent building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilot Station will be continued as heretofore, off Point Palmyra, during the S. W. Monsoon, that is from the 1st March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 48'$ to $20^{\circ} 49'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 15 fathoms, to steer to the N. E. keeping in from 13 to 15 fathoms as the wind may huff to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon above mentioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyra and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind huffs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyra, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Sauger Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyra Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,

C. B. GREENLAW, Secretary.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each consignment, the value of which is to be ascertained by the Officers of the Indian Government, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For repayment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

Per Company's Rupee for Advances made at.....	Bengal.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of repaying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the

Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

CONSIDERABLE misapprehension prevailing as to what articles are comprised in the term "Baggage in use" and so entitled to Free duty—it is hereby declared, that the term applies solely to Wearing Apparel, second hand or in use, Cabin Furniture and trifling Personal Property, all in use and accompanying the Proprietor.

The Tidewater on board each Vessel, after satisfying himself by inspection that Baggage as above defined, has been in use, will pass direct from the Ship.

Fresh Millinery, Saddlery, Musical Instruments, Guns, Pistols, Carriages, Wines, Spirits, Plate, Glass, Crockery, &c. not used, [although for personal use and not brought for sale] are liable to Duty; all packages containing such articles as well as all closed packages whatever the contents may be, stated to be, must be sent to the Customs House at the expense of the Proprietor for examination and levy of Duty, unless the Proprietor can produce to the Tidewater a Custom House Permit or Pass—particularly specifying such packages.

Passengers whose Baggage may have been forwarded to the Customs House, are requested to apply in writing to the Collector of Customs at the Customs House for a Permit; such application should contain the number of packages and the contents and value of each.

Personal applications cannot be attended to.

LIGHT AT FALSE POINT—BAY OF BENGAL. NOTICE.

REFERRING to the Notice published from this Office under date 18th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longitude $86^{\circ} 48' 5''$ E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilot Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till daylight.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon above mentioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Sauger Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at

the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,

C. B. GREENLAW, Secretary.

LIGHT AT FALSE POINT—BAY OF BENGAL. NOTICE.

REFERRING to the Notice published from this Office under date 19th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 10' 25''$ N. and Longitude $88^{\circ} 48' 4''$ E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmyra, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 45'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may blow to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyra and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind blows to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyra, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Sanger Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for the Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour; and as before stated, at the Point Palmyra Station, during the S. W. Monsoon, or between 15th March and 15th September, each Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during

the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,

The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

**FORT WILLIAM,
LEGISLATIVE DEPARTMENT,
THE 31st JULY, 1837.**

The following Draft of a proposed Act was read in Council for the first time on the 31st July 1837.

Act No. — of 1837.

I. It is hereby enacted, that it shall be competent for the Governor of the Presidency of Fort William in Bengal, and for the Lieut.-Governor of the North Western Provinces, respectively, to appoint a Superintendent of Police in the Lower and Western Provinces.

II. And it is hereby enacted, that whenever a Superintendent of Police may be appointed under this Act, Sec. 7 Reg. I. 1829 of the Bengal Code, shall cease to have effect in the Territories which may be comprised within the jurisdiction of such Superintendent—and such Superintendent shall be guided in the execution of the duties of his Office by the Rules contained in Reg. X. 1808 and other Regulations of the Bengal Code, subsequently enacted, in regard to the same Office.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India, after the 12th day of September next.

W. H. MACNAGHTEN,
Secy. to the Govt. of India.

**FORT WILLIAM,
LEGISLATIVE DEPARTMENT,
THE 31st JULY, 1837.**

Resolution.—The Governor General in Council having again taken into consideration the several Provisions contained in the Draft of Act promulgated for general information on the 13th of March last, (published in the Calcutta Gazette of the 18th of the same month,) and having maturely weighed the several objections urged against the proposed enactment, is of opinion that these objections are not of a nature to counterbalance the advantages which will thereby be attained in the more speedy adjudication of Civil Claims and in the relief of the European Judges from functions which interfere with their primary duty of effectually superintending and controlling the general judicial administration. His Lordship in Council is unable to discern any good reason for interdicting the highest grade of Native Judges, who are already competent to try Suits to the extent of 5000 Rupees, from trying Suits involving a larger amount,—and, in a similar spirit of confidence in their efficiency, he deems it proper not to maintain the sole which precludes the Native Judges from adjudicating claims to which the Government or its Officers may be a party. His Lordship in Council is, however, satisfied, from the discussions which have passed on the subject, that it is expedient to provide for a direct appeal to the Court of Sudder Dewanny Adawlat from the decisions of the highest grade of Native Judges in Suits in which from the amount at issue, these Officers have not hitherto been competent to exercise jurisdiction.

2. The Governor General in Council is, at the same time, fully sensible of the justice and expediency of duly augmenting the allowances of the Native Judges when the public finances will permit, and thereby adding to the securities already existing for the faithful administration of justice. He has learned that, in the opinion of the best authorities, those allowances, as regards a provision for the ministerial establishments of the Native Judges, are generally inadequate, and that they are, in some cases, fixed on a scale so low as urgently to require revision. Some improvement in the personal allowances and position of the highest and of the lowest grade of the Native Judges, is also found to be an object of high importance,—there not being at present, in the former class, the prospect of further honorable promotion, and the number of the latter being so great, as, in frequent cases, to debar the most meritorious Servants from any but a very distant and uncertain chance of advancement. For the latest median class of Native Judges, or the Sudder

Ameens, who are greatly less numerous than the Mooniffs, adequate means of reward are provided in the existing rules and practice respecting their promotion to the Office of Principal Sudder Ameens, a promotion which will be much more valuable under the modification in the pay of that Office now about to be introduced. Upon these grounds, His Lordship in Council has resolved to increase the allowances of the Native Judges by adding 200 Rupees per mensem to the Personal Salaries of one-fourth, to be selected as a Superior Class according to merits and service, of the Principal Sudder Ameens, and 50 Rupees to the Personal Salaries of one-fourth, to be similarly selected, of the Mooniffs, as well as to increase the allowances already received for the maintenance of Establishments by the Principal Sudder Ameens, Sudder Ameens, and Mooniffs, by adding 50 Rupees per mensem to the allowances at present granted on that account, to the entire first class of Officers, and 30 Rupees per mensem to that received on the same account, by all of the two last named classes of Officers. By this measure, a large immediate increase of expenditure will be occasioned. But having in view the essential object of promoting the efficient and satisfactory administration of justice,—considering also the present less unfavorable condition and prospects of the Indian Finances, and the propriety of applying, with prudence and caution, to purposes of pressing public improvement, the growing resources from enhancement in the Bengal Land Revenues and other sources,—and looking also to early equivalent reductions from measures now in progress in the Judicial Department of the Bengal Presidency, His Lordship in Council is prepared to sanction this addition to the Public Burthens. The opportunity of promulgating the subjoined Draft of Rules for expediting and improving the administration of Civil Justice, has also been taken to introduce certain Subsidiary Rules for regulating the costs of Suit and form of Appeal in certain cases, as well as, in connection with the main object of the Draft and of the Resolution now promulgated, for more efficiently securing the independence and respectability of the Ministerial Officers of the Native Judges' Establishments, by rendering the appointment and removal of those Officers subject to the confirmation of the European Judges.

The following Draft of a proposed Act was accordingly read in Council on the 31st Instant:

Act No. — of 1837.

I. It is hereby enacted, in modification of Sec. XVIII. Reg. V. 1831, of the Bengal Code, that from the day of —, no Zillah or City Judge within the Territories subject to the Presidency of Fort William in Bengal, shall be precluded by reason of the amount or value of the property for the recovery of which a Suit is instituted, from referring that suit to any Principal Sudder Ameens.

II. And it is hereby enacted, that in all Suits which shall, under the authority of this Act, be referred to a Principal Sudder Ameens, the Appeal from the decision of such Principal Sudder Ameens shall be direct to the Court of Sudder Dewanny Adawlat, and shall be conducted in all respects according to the same Rules as if it were an Appeal from the decision of a Zillah Judge to the said Court of Sudder Dewanny Adawlat.

III. And it is hereby enacted, that so much of Clause Second, Sec. XXI. Reg. VII. 1822, and Sec. XIX. Reg. VIII. 1831, of the Bengal Code, as declares that Suits of the description therein referred to, shall not be cognizable by, or referable to, any Sudder Ameens or Mooniffs, be repealed.

IV. And it is hereby enacted, that it shall be competent to a Zillah or City Judge to refer for trial and decision any Suit preferred under the Provisions of Clause First, Sec. XXX. Reg. II. 1819, of the Bengal Code, to any Principal Sudder Ameens, any thing in the existing Regulations to the contrary notwithstanding.

V. And it is hereby enacted, that whenever a Zillah or City Judge, in the exercise of the discretion vested in him by Sec. VII. Reg. V. 1831, of the Bengal Code, shall refer for trial to a Sudder Ameens or Principal Sudder Ameens, a Suit within the competency of a Mooniff to decide, such Suit shall be subject to the same rules in regard to Stamp Duties, and to the same rules in regard to Appeal as the said Suit would

have been adjointed to had it been resolved and tried by the Moonsiff in the first instance.

VI. Provided, however, that when any such Suit shall have been decided by a Principal Sudder Ameen, the Appeal from such decision shall lie to the Zillah or City Judge, and shall be tried by him only, and that the decision of the Zillah or City Judge on such appeal, shall be final, any thing in the existing Regulations to the contrary notwithstanding.

VII. And it is hereby enacted, that whenever a Zillah or City Judge shall refer for trial to a Principal Sudder Ameen a Suit within the competency of a Sudder Ameen to decide, such Suit shall be subject to the same rules in regard to Stamp duties, and to the same rules in regard to Appeal, as the said Suit would have been subjected to, had it been referred to, and tried by, the Sudder Ameen in the first instance.

VIII. And it is hereby enacted, that Clause First, Sec. XXV. Reg. V. 1831, of the Bengal Code, be repealed.

IX. And it is hereby enacted, that the rule contained in the Second Clause of the aforesaid Section, be extended to the Ministerial Officers of the Moonsiffs' Courts.

X. And it is hereby enacted, that all Officers of the Courts of the Moonsiffs, Sudder Ameen, and Principal Sudder Ameen, whose salaries shall exceed 10 Rupees per mensem, shall be held to be Ministerial Officers, and that such Officers shall be nominated and appointed by those Courts respectively, subject to the approval and confirmation of the Zillah and City Judges within whose jurisdictions the said Courts may be situated, and that no Ministerial Officer of the said Courts shall be removed without the sanction of the said Zillah and City Judges.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the next meeting of the Legislative Council of India after the 12th day September next.

W. H. MACNAGHTEN,

Secy. to the Govt. of India.

Upon every such occasion you will furnish us with the requisite information, with the least practicable delay.

FORT WILLIAM.

FINANCIAL DEPARTMENT, 26TH JUNE, 1836.

Notice is hereby given, that under Instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve; and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

s. d.

Per Company's Rupee for Advances made at.....	Bengal.
Ditto.....Ditto.....	Madras.
Ditto.....Ditto.....	Bombay.
Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom be received the Advances, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whatsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances

made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

THE 31st JULY, 1837.

Resolution.—The Governor General in Council having again taken into consideration the several Provisions contained in the Draft of Act promulgated for general information on the 13th of March last, (published in the Calcutta Gazette of the 18th of the same month,) and having maturely weighed the several objections urged against the proposed

enactment, is of opinion that these objections are not of a nature to counterbalance the advantages which will thereby be attained in the more speedy adjudication of Civil Claims and in the relief of the European Judges from functions which interfere with their primary duty of effectually superintending and controlling the general judicial administration. His Lordship in Council is unable to discern any good reason for interdicting the highest grade of Native Judges, who are already competent to try Suits to the extent of 2000 Rupees, from trying Suits involving a larger amount,—and, in a similar spirit of confidence in their efficiency, he deems it proper not to maintain the rule which precludes the Native Judges from adjudicating claims to which the Government or its Officers may be a party. His Lordship in Council is, however, satisfied, from the discussions which have passed on the subject, that it is expedient to provide for a direct appeal to the Court of Sudder Dewanny Adawlut from the decisions of the highest grade of Native Judges in Suits in which the amount at issue, these Officers have not heretofore been competent to exercise jurisdiction.

2. The Governor General in Council is, at the same time, fully sensible of the justice and expediency of duly augmenting the allowances of the Native Judges when the public finances will permit, and thereby adding to the securities already existing for the faithful administration of justice. He has learned that, in the opinion of the best authorities, these allowances, as regards a provision for the ministerial establishments of the Native Judges, are generally inadequate, and that they are, in some cases, fixed on a scale so low as urgently to require revision. Some improvement in the personal allowances and position of the highest and of the lowest grade of the Native Judges, is also found to be an object of high importance,—there not being at present, in the former class, the prospect of further honorable promotion, and the number of the latter being so great, as, in frequent cases, to deter the most meritorious Serajis from any but a very distant and uncertain chance of advancement. For the intermediate class of Native Judges, or the Sudder Amcees, who are greatly less numerous than the Moonisiffs, adequate means of reward are prevented in the existing rules and practice respecting their promotion to the office of Principal Sudder Amcees, a promotion which will be much more valuable under the modification in the pay of that office now about to be introduced. Upon these grounds, His Lordship in Council has resolved to increase the allowances of the Native Judges by adding 200 Rupees per mensem to the Personal Salaries of one-fourth, to be selected as a Superior Class according to merit and service, of the Principal Sudder Amcees, and 50 Rupees to the Personal Salaries of one-fourth, to be similarly selected, of the Moonisiffs, as well as to increase the allowances already received for the maintenance of Establishments by the Principal Sudder Amcees, Sudder Amcees, and Moonisiffs, by adding 50 Rupees per mensem to the allowances at present granted on that account, to the entire first class of Officers, and 30 Rupees per mensem to that received on the same account, by all of the two last named classes of Officers. By this measure, a large immediate increase of expenditure will be occasioned. But having in view the essential object of promoting the efficient and satisfactory administration of justice,—considering also the present less unfavorable condition and prospects of the Indian Finances, and the propriety of applying, with prudence and caution, to purposes of pressing public improvement, the growing resources from enhancement in the Bengal Land Revenue and other sources,—and looking also to early equivalent reductions from measures now in progress in the Judicial Department of the Bengal Presidency, His Lordship in Council is prepared to sanction this addition to the Public Expenditure. The opportunity of promulgating the subjoined Draft of Rules for expediting and improving the administration of Civil Justice, has also been taken to introduce certain Subsidiary Rules for regulating the costs of Suit and form of Appeal in certain cases, as well as, in connection with the main object of the Draft and of the Resolution now promulgated, for more effectually securing the independence and responsibility of the Ministerial Officers of the Native Judges' Establishments, by rendering the

appointment and removal of these Officers subject to the confirmation of the European Judges.

The following Draft of a proposed Act was accordingly read in Council on the 31st Instant:

Act No. — of 1837.

I. It is hereby enacted, in modification of Sec. XVIII. Reg. V. 1831, of the Bengal Code, that from the day of —, no Zillah or City Judge within the Territories subject to the Presidency of Fort William in Bengal, shall be precluded by reason of the amount or value of the property for the recovery of which a Suit is instituted, from referring that suit to any Principal Sudder Ameen.

II. And it is hereby enacted, that in all Suits which shall, under the authority of this Act, be referred to a Principal Sudder Ameen, the Appeal from the decision of such Principal Sudder Ameen shall be direct to the Court of Sudder Dewanny Adawlut, and shall be conducted in all respects according to the same Rules as if it were an Appeal from the decision of a Zillah Judge to the said Court of Sudder Dewanny Adawlut.

III. And it is hereby enacted, that so much of Clause Second, Sec. XXI. Reg. VII. 1822, and Sec. XIX. Reg. VIII. 1831, of the Bengal Code, as declares that Suits of the description therein referred to, shall not be cognizable by, or referable to, any Sudder Ameen or Moonsiff, be repealed.

IV. And it is hereby enacted, that it shall be competent to a Zillah or City Judge to refer for trial and decision any Suit preferred under the Provisions of Clause First, Sec. XXX. Reg. II. 1819, of the Bengal Code, to any Principal Sudder Ameen, any thing in the existing Regulations to the contrary notwithstanding.

V. And it is hereby enacted, that whenever a Zillah or City Judge, in the exercise of the discretion vested in him by Sec. VII. Reg. V. 1831, of the Bengal Code, shall refer for trial to a Sudder Ameen or Principal Sudder Ameen, a Suit within the competency of a Moonsiff to decide, such Suit shall be subject to the same rules in regard to Stamp Duties, and to the same rules in regard to Appeal as the said Suit would have been subjected to had it been received and tried by the Moonsiff in the first instance.

VI. Provided, however, that when any such Suit shall have been decided by a Principal Sudder Ameen, the Appeal from such decision shall lie to the Zillah or City Judge, and shall be tried by him only, and that the decision of the Zillah or City Judge on such appeal, shall be final, any thing in the existing Regulations to the contrary notwithstanding.

VII. And it is hereby enacted, that whenever a Zillah or City Judge shall refer for trial to a Principal Sudder Ameen a Suit within the competency of a Sudder Ameen to decide, such Suit shall be subject to the same rules in regard to Stamp duties, and to the same rules in regard to Appeal, as the said Suit would have been subjected to, had it been referred to, and tried by, the Sudder Ameen in the first instance.

VIII. And it is hereby enacted, that Clause First, Sec. XXV. Reg. V. 1831, of the Bengal Code, be repealed.

IX. And it is hereby enacted, that the rule contained in the Second Clause of the aforesaid Section, be extended to the Ministerial Officers of the Moonsiffs' Courts.

X. And it is hereby enacted, that all Officers of the Courts of the Moonsiffs, Sudder Ameen, and Principal Sudder Ameen, whose salaries shall exceed 10 Rupees per mensem, shall be held to be Ministerial Officers, and that such Officers shall be nominated and appointed by these Courts respectively, subject to the approval and confirmation of the Zillah and City Judges within whose jurisdictions the said Courts may be situated, and that no Ministerial Officer of the said Courts shall be removed without the sanction of the said Zillah and City Judges.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India after the 12th day September next.

LIGHT AT FALSE POINT—BAY OF BENGAL.
NOTICE.

REFERRING to the Notice published from this Office under date 10th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longitude $86^{\circ} 46' 6''$ E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilot Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 15 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmiras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

X. 1808 and other Regulations of the Bengal Code, subsequently enacted, in regard to the same Office.

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THU 31ST JULY, 1837.

Resolution.—The Governor General in Council having again taken into consideration the several Provisions contained in the Draft of Act promulgated for general information on the 13th of March last, (published in the Calcutta Gazette of the 19th of the same month,) and having maturely weighed the several objections urged against the proposed enactment, is of opinion that these objections are not of a nature to counterbalance the advantages which will thereby be obtained in the more speedy adjudication of Civil Claims and in the relief of the European Judges from functions which interfere with their primary duty of effectually superintending and controlling the general judicial administration. His Lordship in Council is unable to discern any good reason for interdicting the highest grade of Native Judges, who are already competent

to try Suits to the extent of 5000 Rupees, from trying Suits involving a larger amount,—and, in a similar spirit of confidence to their efficiency, he deems it proper not to maintain the rule which precludes the Native Judges from adjudicating claims to which the Government or its Officers may be a party. His Lordship in Council is, however, satisfied, from the discussions which have passed on the subject, that it is expedient to provide for a direct appeal to the Court of Sadre Dewany Adawlut from the decisions of the highest grade of Native Judges in Suits in which from the amount at issue, these Officers have not heretofore been competent to exercise jurisdiction.

2. The Governor General in Council is, at the same time, fully sensible of the justice and expediency of duly augmenting the allowances of the Native Judges when the public finances will permit, and thereby adding to the securities already existing for the faithful administration of justice. He has learned that, in the opinion of the best authorities, those allowances, as regards a provision for the ministerial establishments of the Native Judges, are generally inadequate, and that they are, in some cases, fixed on a scale so low as urgently to require revision. Some improvement in the personal allowances and position of the highest and of the lowest grade of the Native Judges, is also found to be an object of high importance.—there not being at present, in the former class, the prospect of further honorable promotion, and the number of the latter being so great, as, in frequent cases, to debar the most meritorious Servants from any but a very distant and uncertain chance of advancement. For the intermediate class of Native Judges, or the Sadre Ameen, who are greatly less numerous than the Mooniffs, adequate means of reward are presented in the existing rules and practice respecting their promotion to the office of Principal Sadre Ameen, a promotion which will be much more valuable under the modification in the pay of that office now about to be introduced. Upon these grounds, His Lordship in Council has resolved to increase the allowances of the Native Judges by adding 300 Rupees per annum to the Personal Salaries of one-fourth, to be selected as a Superior Class according to merits and services, of the Principal Sadre Ameen, and 50 Rupees to the Personal Salaries of one-fourth, to be similarly selected, of the Mooniffs, as well as to increase the allowances already reserved for the maintenance of Establishments by the Principal Sadre Ameen, Sadre Ameen, and Mooniffs, by adding 50 Rupees per annum to the allowances at present granted on that account, to the entire first class of Officers, and 30 Rupees per annum to that reserved on the same account, by all of the two last named classes of Officers. By this measure, a large immediate increase of expenditure will be occasioned. But having in view the essential object of promoting the efficient and satisfactory administration of justice,—considering also the present less unfavorable condition and prospects of the Indian Finances, and the propriety of applying, with prudence and caution, to purposes of pressing public improvement, the growing resources from enhancement in the Bengal Land Revenue and other sources,—and looking also to early equivalent reductions from measures now in progress in the Judicial Department of the Bengal Presidency, His Lordship in Council is prepared to sanction this addition to the Public Burthens. The opportunity of promulgating the anticipated Draft of Rules for expediting and improving the administration of Civil Justice, has also been taken to introduce certain Subsidiary Rules for regulating the costs of Suit and form of Appeal in certain cases, as well as, in connection with the main object of the Draft and of the Resolution now promulgated, for more effectually securing the independence and respectability of the Ministerial Officers of the Native Judges' Establishments, by rendering the appointment and removal of those Officers subject to the confirmation of the European Judges.

The following Draft of a proposed Act was accordingly read in Council on the 31st Instant:

ACT No. — or 1837.

I. It is hereby enacted, in modification of Sec. XVIII. Reg. V. 1831, of the Bengal Code, that from the day of , no Zillah or City Judge within the Territories subject to the

Presidency of Fort William in Bengal, shall be precluded by reason of the amount or value of the property for the recovery of which a Suit is instituted, from referring that suit to any Principal Sudder Ameen.

II. And it is hereby enacted, that in all Suits which shall, under the authority of this Act, be referred to a Principal Sudder Ameen, the Appeal from the decision of such Principal Sudder Ameen shall be direct to the Court of Sudder Dewanny Adawlat, and shall be conducted in all respects according to the same Rules as if it were an Appeal from the decision of a Zillah Judge to the said Court of Sudder Dewanny Adawlat.

III. And it is hereby enacted, that so much of Clause Second, Sec. XXI. Reg. VII. 1822, and Sec. XIX. Reg. VIII. 1831, of the Bengal Code, as declares that Suits of the description therein referred to, shall not be cognizable by, or referable to, any Sudder Ameen or Moonsiff, be repealed.

IV. And it is hereby enacted, that it shall be competent to a Zillah or City Judge to refer for trial and decision any Suit preferred under the Provisions of Clause First, Sec. XX. Reg. II. 1819, of the Bengal Code, to any Principal Sudder Ameen, any thing in the existing Regulations to the contrary notwithstanding.

V. And it is hereby enacted, that whenever a Zillah or City Judge, in the exercise of the discretion vested in him by Sec. VII. Reg. V. 1831, of the Bengal Code, shall refer for trial to a Sudder Ameen or Principal Sudder Ameen, a Suit within the competency of a Moonsiff to decide, such Suit shall be subject to the same rules in regard to Stamp Duties, and to the same rules in regard to Appeal as the said Suit would have been subjected to had it been received and tried by the Moonsiff in the first instance.

VI. Provided, however, that when any such Suit shall have been decided by a Principal Sudder Ameen, the Appeal from such decision shall lie to the Zillah or City Judge, and shall be tried by him only, and that the decision of the Zillah or City Judge on such appeal, shall be final, any thing in the existing Regulations to the contrary notwithstanding.

VII. And it is hereby enacted, that whenever a Zillah or City Judge shall refer for trial to a Principal Sudder Ameen a Suit within the competency of a Sudder Ameen to decide, such Suit shall be subject to the same rules in regard to Stamp duties, and to the same rules in regard to Appeal, as the said Suit would have been subjected to, had it been referred to, and tried by, the Sudder Ameen in the first instance.

VIII. And it is hereby enacted, that Clause First, Sec. XXV. Reg. V. 1831, of the Bengal Code, be repealed.

IX. And it is hereby enacted, that the rule contained in the Second Clause of the aforesaid Section, be extended to the Ministerial Officers of the Moonsiffs' Courts.

X. And it is hereby enacted, that all Officers of the Courts of the Moonsiffs, Sudder Ameen, and Principal Sudder Ameen, whose salaries shall exceed 10 Rupees per mensem, shall be held to be Ministerial Officers, and that such Officers shall be nominated, and appointed by those Courts respectively, subject to the approval and confirmation of the Zillah and City Judges within whose jurisdictions the said Courts may be situated, and that no Ministerial Officer of the said Courts shall be removed without the sanction of the said Zillah and City Judges.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India after the 12th day September next.

W. H. MACNAGHTEN,

Secy. to the Govt. of India.

PORT WILLIAM. LEGISLATIVE DEPARTMENT.

The 31st JULY, 1837.

The following Draft of a proposed Act published for general information in the Official Gazette of the 17th of May last, was read and re-considered under this date:

ACT No. — of 1837.

I. It is hereby enacted, that from the day of in every case in which any person is now required by any Regulation of any Presidency, or by any Act of the Indian Government to make Oath to the truth of any Statement made to any Collector of Sea or Land Customs, or of Town Duties, a written declaration subscribed by that person to the same effect with the Oath which that person is now required to make, shall be received by such Collector of Customs instead of such Oath.

II. And it is hereby enacted, that whoever in any written declaration made and subscribed under the authority of this Act instead of an Oath, shall knowingly state an untruth, shall be punished on conviction before a Magistrate with imprisonment for a term not exceeding one year, or fine, or both.

RESOLUTION.

It appears to His Lordship in Council that the principles on which the Draft now under re-consideration has been framed, may with advantage be carried much further.

2. The Draft under consideration provides only for cases in which the law now requires Oaths to be taken before a Collector of Customs or of Town Duties. These are, however, by no means the only cases in which useless Oaths are imposed: and it appears to be indisputable that an Oath which is useless must be worse than useless. The Regulations of all the Presidencies now enjoin the taking of Oaths on many occasions, which are not so important as to justify the employment of a sanction, the efficacy of which, as experience has amply proved, is likely to be in proportion to its rarity.

3. In cases therefore in which the existing Regulations require the taking of Oaths, His Lordship in Council is inclined, with one important reservation, to grant to the Governments of the three Presidencies and to the Lieutenant Governor of the N. W. Provinces, the power of dispensing with those Oaths, and of regulating in their stead written declarations.

4. This dispensing power will not extend to Oaths which the law now requires to be taken in any stage of any judicial proceeding.

5. His Lordship in Council is perfectly satisfied that the high functionaries to whom he proposes to confide the power of dispensing with Oaths, will exercise that power in conformity with the intentions of the Legislature. In every part of India the judicial administration, the fiscal administration and the Police are so intermingled with each other, that it is not always easy to distinguish between them. Many proceedings which in their essential character are judicial, are not judicial in form; and it is evident that the propriety of taking evidence on Oath must depend, not on the form, but on the essential character of the proceeding. His Lordship in Council has no doubt that the law which is now published will, if it shall be finally enacted, be executed in the same spirit in which it has been framed, and that the Governments of the three Presidencies and the Lieutenant Governor of the N. W. Provinces will be particularly careful not to dispense with any Oath which the law now imposes in any stage of any proceeding which is in substance judicial.

6. In conformity with these views, the following Draft of an Act has been prepared, and is herewith published for general information:

ACT No. — of 1837.

I. It is hereby enacted, that from the day of it shall be lawful for the Governor in Council of any Presidency of which there is a Council, and for the Governor of any Presidency of which there is no Council, to dispense with any Oath which by any Regulation of that Presidency or by any Act of the Governor General of India in Council is now required to be taken, and that it shall be lawful for the Lieutenant Governor of the

N. W. Provinces to dispense with any Oath which by any Regulation or any Act of the Governor General of India in Council now in force within those Provinces is now required to be taken.

II. Provided always, that the dispensing power given by this Act shall not extend to any Oath now required by Law to be taken in any stage of any judicial proceeding.

III. And it is hereby enacted, that whenever any Oath is dispensed with under the authority given by this Act, the person who but for such dispensation would have been legally required to take such Oath shall, in the presence of the functionary by whom, but for such dispensation such Oath would have been administered, make and subscribe a declaration in writing to the same effect with such Oath.

IV. And it is hereby enacted, that whenever shall, in any declaration made and subscribed according to the provisions of this Act, knowingly state any untruth such that if that untruth had been stated on Oath, the person stating it would have been guilty of Perjury, shall be punished with imprisonment for a term not exceeding one year, or fine, or both.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India, after the 10th day of September next.

W. H. MACNAGHTEN,
Secy. to the Govt. of India.

LIGHT AT FALSE POINT—BAY OF BENGAL. NOTICE.

REFERRING to the Notice published from this Office under date 18th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longitude $86^{\circ} 48' 8''$ E.

The Light will be exhibited from an elevation of about 85 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 13 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilot's Station will be continued as heretofore, off Point Palmyra, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 44'$ N. with the Point bearing West to W. by S.; the Vessel on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on seeking the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 16 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyra and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyra, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Fox Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Sauger Sand and the Western Fox Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red flag flying at the Mast whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyra Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,
C. B. GREENLAW, Secretary.
Port William, the 23d January, 1887.

NOTICE is hereby given, that under the Provisions of Rule 5th of the Notification issued by the Board, bearing date the 9th May 1887, the Price of Bhoosa B. birboony Salt of 1842 is reduced from Rs. 437 to Rs. 420 per 100 Maunds of 82 Ss. Wt. to the Seer. Parties willing to purchase the above Salt will obtain the Chars and Rowanahs upon payment of the Price at the rate now fixed, after the expiration of ten days from the date hereof, that is to say, on and from the 19th instant.

SATURDAY, AUGUST 12, 1837.

FORT WILLIAM, LEGISLATIVE DEPARTMENT,

The 31st July, 1837.

The following Draft of a proposed Act published for general information in the Official Gazette of the 17th of May last, was read and re-considered under this date:

ACT No. — of 1837.

I. It is hereby enacted, that from the day of in every case in which any person is now required by any Regulation of any Presidency, or by any Act of the Indian Government to make Oath to the truth of any Statement made to any Collector of Sea or Land Customs, or of Town Duties, a written declaration subscribed by that person to the same effect with the Oath which that person is now required to make, shall be received by such Collector of Customs instead of such Oath.

II. And it is hereby enacted, that whoever in any written declaration made and subscribed under the authority of this Act instead of an Oath, shall knowingly state an untruth, shall be punished on conviction before a Magistrate with imprisonment for a term not exceeding one year, or fine, or both.

RESOLUTION.

It appears to His Lordship in Council that the principle on which the Draft now under re-consideration has been framed, may with advantage be carried much further.

2. The Draft under consideration provides only for cases in which the law now requires Oaths to be taken before a Collector of Customs or of Town Duties. These are, however, by no means the only cases in which useless Oaths are imposed: and it appears to be indisputable that an Oath which is useless must be worse than useless. The Regulations of all the Presidencies now enjoin the taking of Oaths on many occasions, which are not so important as to justify the employment of a sanction, the efficacy of which, as experience has amply proved, is likely to be in proportion to its rarity.

3. In cases therefore in which the existing Regulations require the taking of Oaths, His Lordship in Council is inclined, with one important reservation, to grant to the Governments of the three Presidencies and to the Lieutenant Governor of the N. W. Provinces, the power of dispensing with those Oaths, and of requiring in their stead written declarations.

4. This dispensing power will not extend to Oaths which the law now requires to be taken in any stage of any judicial proceeding.

5. His Lordship in Council is perfectly satisfied that the high functionaries to whom he proposes to confide the power of dispensing with Oaths, will exercise that power in conformity with the intentions of the Legislature. In every part of India the

judicial administration, the fiscal administration and the Police are so intermingled with each other, that it is not always easy to distinguish between them. Many proceedings which in their essential character are judicial, are not judicial in form; and it is evident that the propriety of taking evidence on Oath must depend, not on the form, but on the essential character of the proceeding. His Lordship in Council has no doubt that the law which is now published will, if it shall be finally enacted, be executed in the same spirit in which it has been framed, and that the Governments of the three Presidencies and the Lieutenant Governor of the N. W. Provinces will be particularly careful not to dispense with any Oath which the law now imposes in any stage of any proceeding which is in substance judicial.

6. In conformity with these views, the following Draft of an Act has been prepared, and is herewith published for general information:

ACT No. — of 1837.

I. It is hereby enacted, that from the day of it shall be lawful for the Governor in Council of any Presidency of which there is a Council, and for the Governor of any Presidency of which there is no Council, to dispense with any Oath which by any Regulation of that Presidency or by any Act of the Governor General of India in Council is now required to be taken, and that it shall be lawful for the Lieutenant Governor of the N. W. Provinces to dispense with any Oath which by any Regulation or any Act of the Governor General of India in Council now in force within those Provinces is now required to be taken.

II. Provided always, that the dispensing power given by this Act shall not extend to any Oath now required by Law to be taken in any stage of any judicial proceeding.

III. And it is hereby enacted, that whenever any Oath is dispensed with under the authority given by this Act, the person who but for such dispensation would have been legally required to take such Oath shall, in the presence of the functionary by whom, but for such dispensation such Oath would have been administered, make and subscribe a declaration in writing to the same effect with such Oath.

IV. And it is hereby enacted, that whoever shall, in any declaration made and subscribed according to the provisions of this Act, knowingly state any untruth such that if that untruth had been stated on Oath, the person stating it would have been guilty of Perjury, shall be punished with imprisonment for a term not exceeding one year, or fine, or both.

Ordered, that the said Draft be re-considered at the next meeting of the Legislative Council of India, after the 19th day of September next.

W. H. MACNAUGHTEN,

Secy. to the Govt. of India.

1. It is hereby enacted, that from the day of — neither the Criminal Judge nor the Magistrate of the Zillah of Chingleput shall have any jurisdiction in respect of offences committed within the Collectorate of Madras against any Regulation relating to the public revenue.

2. 3. Provided always, that in the exercise of this jurisdiction the said Superintendent of Police and the said Deputies shall not be subject to the orders of the Court of Circuit for the Centre Division of the Madras Territories, nor be bound by any rule in the Madras Code of Regulations to furnish any Calendar, List, or Report to that Court, but shall be immediately subject to the orders of the Court of Foujdarry Adawlut, and shall furnish to the Court of Foujdarry Adawlut such Lists or Calendars of Charges preferred before them, or of persons sentenced to punishment by them, as the said Court of Foujdarry Adawlut may direct.

4. Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India after the 15th day of September next.

LIGHT AT FALSE POINT—BAY OF BENGAL.
NOTICE.

REFERRING to the Notice published from this Office
under date 19th July last, Notice is given that on the
1st day of March next a Light will be exhibited at False
Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longi-
tude $86^{\circ} 48' 6''$ E.

The Light will be exhibited from an elevation of about
65 feet above high water mark, and be visible in clear
weather at a distance of about 13 miles from an elevation
of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of
November, after which it will be discontinued, in order to
the removal of the Lantern to the top of the permanent
Building. It will subsequently, viz. on and after the 1st
March, 1838, be again exhibited at an elevation of 120 feet
above high water mark, and be then visible from 18 to
20 miles in clear weather, from the height of 15 feet from
the surface of the Sea.

The Pilots' Station will be continued as heretofore, off
Point Palmyra, during the S. W. Monsoon, that is from
the 15th March to the 15th September, during which period
the Pilot Vessels cruise during the day off the Point, an-
choring during the night in a line East and West, in
Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing West
to W. by S.; the Vessel, on board of which the next turn
Pilot may be, will burn a Blue Light and fire a Maroon
alternately every half hour, commencing with the former at
eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are
recommended after bringing it to bear West to from 13 to 14
fathoms, to steer to the N. E. keeping in from 13 to 16
fathoms as the wind may blow to the Westward or East-
ward, on no account coming under the former depth. In
this track the Blue Light and Maroon abovementioned will
be seen long before the Light on False Point is lost sight
of. If, however, about the beginning of September, the
wind comes from the Eastward or the weather assumes a
threatening appearance, the Pilot Vessels necessarily haul
off to the Eastward, and will then be found in a line between
Point Palmyra and the Floating Light at the entrance

of the Eastern Channel. Vessels therefore about that
period, if the wind blows to the Eastward or has a threaten-
ing appearance, are recommended after leaving False Point
on no account to approach Point Palmyra, but rather to
endeavour to make for the Floating Light at the entrance
of the Eastern Channel, and it is further notified that from
the 15th September no Pilot Vessel will be found to the
Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot
Vessels cruise during the day between Rauger Sand and
the Western Sea Reef, anchoring in the night East and
West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are
requested to make for that Vessel on board of which they
will see a large red flag flying at the Main whenever they
can do so without great inconvenience or delay. In the
night during the N. E. Monsoon, that is from 15th
September to 15th March, at the Floating Light Station at
the entrance of the Eastern Channel, the Vessel having the
next turn Pilot on board will burn a Maroon every hour,
and in thick weather every half hour, and as before stated,
at the Point Palmyra Station, during the S. W. Monsoon,
or between 15th March and 15th September, such Vessel
will alternately burn a Blue Light and Maroon every half
hour. Commanders are in like manner requested during
the night to seek their Pilot from such Vessel, it being
however understood that any Pilot Vessel which may be
first seen is bound immediately to use every exertion to put
a Pilot on board, night or day, without reference to turn or
rotation, and that this latter is only allowed when no delay
is occasioned thereby.

SUPPLEMENT TO

The Calcutta Gazette.

Published by Authority.

WEDNESDAY, AUGUST 16, 1837.

**FORT WILLIAM,
LEGISLATIVE DEPARTMENT,
THE 31st JULY, 1837.**

The following Draft of a proposed Act published for general information in the Official Gazette of the 17th of May last, was read and re-considered under this date:

Act No. — of 1837.

I. It is hereby enacted, that from the day of in every case in which any person is now required by any Regulation of any Presidency, or by any Act of the Indian Government to make Oath to the truth of any Statement made to any Collector of Sea or Land Customs, or of Town Duties, a written declaration subscribed by that person to the same effect with the Oath which that person is now required to make, shall be received by such Collector of Customs instead of such Oath.

II. And it is hereby enacted, that whoever in any written declaration made and subscribed under the authority of this Act instead of an Oath, shall knowingly state an untruth, shall be punished on conviction before a Magistrate with imprisonment for a term not exceeding one year, or fine, or both.

RESOLUTION.

It appears to His Lordship in Council that the principle on which the Draft now under re-consideration has been framed, may with advantage be carried much farther.

2. The Draft under consideration provides only for cases in which the law now requires Oaths to be taken before a Collector of Customs or of Town Duties. These are, however, by no means the only cases in which useless Oaths are imposed: and it appears to be indisputable that an Oath which is useless must be worse than useless. The Regulations of all the Presidencies now enjoin the taking of Oaths on many occasions, which are not so important as to justify the employment of a sanction, the efficacy of which, as experience has amply proved, is likely to be in proportion to its rarity.

3. In cases therefore in which the existing Regulations require the taking of Oaths, His Lordship in Council is inclined, with one important reservation, to grant to the Governments of the three Presidencies and to the Lieutenant Governor of the N. W. Provinces, the power of dispensing with those Oaths, and of requiring in their stead written declarations.

4. This dispensing power will not extend to Oaths which the law now requires to be taken in any stage of any judicial proceeding.

5. His Lordship in Council is perfectly satisfied that at the high functionaries to whom he proposes to concede the power of dispensing with Oaths, will exercise that power in conformity with the intentions of the Legislature. In every part of India the judicial administration, the fiscal administration and the Police are so intermingled with each other, that it is not always easy to distinguish between them. Many proceedings which in their essential character are judicial, are not judicial in form; and it is evident that the propriety of taking evidence on Oath must depend, not on the form, but on the essential character of the proceeding. His Lordship in Council has no doubt that the law which is now published will, if it shall be finally enacted, be executed in the same spirit in which it has been framed, and that the Governments of the three Presidencies and the Lieutenant Governor of the N. W. Provinces will be particularly careful not to dispense with any Oath which the law now imposes in any stage of any proceeding which is in substance judicial.

6. In conformity with these views, the following Draft of an Act has been prepared, and is herewith published for general information:

Act No. — of 1837.

I. It is hereby enacted, that from the day of it shall be lawful for the Governor in Council of any Presidency of which there is a Council, and for the Governor of any Presidency of which there is no Council, to dispense with any Oath which by any Regulation of that Presidency or by any Act of the Governor General of India in Council is now required to be taken, and that it shall be lawful for the Lieutenant Governor of the N. W. Provinces to dispense with any Oath which by any Regulation or any Act of the Governor General of India in Council now in force within those Provinces is now required to be taken.

II. Provided always, that the dispensing power given by this Act shall not extend to any Oath now required by Law to be taken in any stage of any judicial proceeding.

III. And it is hereby enacted, that whenever any Oath is dispensed with under the authority given by this Act, the person who but for such dispensation would have been legally required to take such Oath shall, in the presence of the functionary by whom, but for such dispensation such Oath would have been administered, make and subscribe a declaration in writing to the same effect with such Oath.

IV. And it is hereby enacted, that whoever shall, in any declaration made and subscribed according to the provisions of this Act, knowingly state any untruth such that if that untruth had been stated on Oath, the person stating it would have been guilty of Perjury, shall be punished with imprisonment for a term not exceeding one year, or fine, or both.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India, after the 15th day of September next.

W. H. MACNAGHTEN,

Secy. to the Govt. of India.

**PORT WILLIAM,
LEGISLATIVE DEPARTMENT,**

THE 31st JULY, 1837.

The following Draft of a proposed Act was read in Council for the first time on the 31st July, 1837.

Act No. — of 1837.

1. It is hereby enacted, that from the day of — neither the Criminal Judge nor the Magistrate of the Zillah of Chingleput shall have any jurisdiction in respect of offences committed within the Collectorate of Madras against any Regulation relating to the public revenue.

2. And it is hereby enacted, that the whole jurisdiction now belonging to the said Criminal Judge, and also the whole jurisdiction now belonging to the said Magistrate in respect of such offences, shall from the — day of — belong to the Superintendent of Police of the Town of Madras, and to every one of the Deputies of the said Superintendent, and shall be exercised by the said Superintendent and by every one of the said Deputies, according to the rules by which the said Criminal Judge and the said Magistrate are now bound to exercise the same.

3. Provided always, that in the exercise of this jurisdiction the said Superintendent of Police and the said Deputies shall not be subject to the orders of the Court of Circuit for the Centre Division of the Madras Territories, nor be bound by any rule in the Madras Code of Regulations to furnish any Calendar, List, or Report to that Court, but shall be immediately subject to the orders of the Court of Foujdarry Adawlat, and shall furnish to the Court of Foujdarry Adawlat such Lists or Calendars of Charges preferred before them, or of persons sentenced to punishment by them, as the said Court of Foujdarry Adawlat may direct.

4. Provided also, that it shall be lawful for the said Superintendent and every one of the said Deputies in cases in which the said Criminal Judge or the said Magistrate would now be empowered to commit any person to the Jail of Chingleput, to commit such person to any Jail within the Collectorate of Madras.

5. Provided also, that the provisions of Clause 5th of Section VIII. of Regulation XV. of 1803, of the Madras Code, shall be applicable to all Convicts on whom sentence of imprisonment shall have been passed by the said Superintendent of Police, or by any of the said Deputies in the exercise of the jurisdiction transferred to them by this Act.

Ordered, that the Draft now read, be published for general information.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India after the 19th day of September next.

Secy. to the Govt. of India.
